INTRODUCTION

GD Interactive is a Edmonton web planner and developer with a far-reaching resource base, delivering quality work since 1999. Services include web design, shopping carts, templates, custom email, print, office collateral, galleries and video.

WORDPRESS WEBSITES

Countless themes to reflect your business. Wide selection of plugins tailor-made for your requirements. Post publish: Do it yourself by logging into your wordpress dashboard., or we can update for you.

CUSTOM MADE WEBSITES

Starting with a blank slate using the Bootstrap library, we build understanding your requirements. Lightning fast load times. Beautifully fluid.

SHOPPING CARTS

Custom Carts: Built from scratch. Payment process uses Interac with online banking. No need for credit cards. If you would rather hook up to a 3rd party vendor (Stripe, PayPal etc.) we can do that also.

TEMPLATES

A selection of template options to get things started, with the hope that you will find something that fits for you. If you already have something in mind that works also.

CUSTOM EMAIL

What a user who sends a form from your website receives. You receive a carbon copy to process the request.

PRINT

From icons to billboards, we have extensive experience in all types of graphic materials. A simple approach to branding. The idea is to resonate in the mind of the viewer.

OFFICE COLLATERAL

Tailor-made office collateral. Invoices, quotes and more. Illustrator, photoshop And Microsoft Word - Output to PDF.

VIDEO

Video embedded in your web page. We can process any video links you have to make this happen, or we can embed your supplied first generation videos directly. Full page video and playlists also available for any video format.

GALLERIES

Multiple options. Lightbox, scrolling, slideshow and more. A picture is worth a thousand words. YouTube video or similar and first generation videos as galleries. We can process any videos you have.

TWO WAY STREET

Adjustments happen. Keeping the lines of communication open is important. The focus is on putting the client's best foot forward and giving viewers a simple and interesting experience.

Sincerely, Geoff Dean
